

Synopsis

This report addresses the rapidly changing market dynamics surrounding the many different opportunities to provide residential energy management solutions. It explains the potential impact of trends driving the market in 2011 and beyond. In addition, it covers some of the major market opportunities and provides forecasts through 2015 for sales and revenues for a variety of solutions, along with background about the forecasting methodology.

REM Market Opportunities

Publish Date: 1Q 11

"The market for residential energy management (REM) solutions is entering a period of 'Pervasive Growth' characterized by the entrance of many more firms with a variety of solutions, growing consumer awareness of the benefits of REM solutions, and significant growth in sales volumes within the next five years," said Bill Ablondi, director, home systems research, Parks Associates.

Contents

Bottom Line

Data Points

Residential Energy Management Dashboard

1.0 Introduction

- 1.1 Key Questions & Issues Addressed
- 1.2 Scope
- 1.3 Source of Consumer Data
- 1.4 Definitions and Acronyms

2.0 State of the Residential Energy Management

- 2.1 Key Developments in 2010
- 2.2 Consumer Mindset and Motivations
- 2.3 Standards ...Lots of Choices
 - 2.3.1 ZigBee – Smart Energy 2.0 Timeline
 - 2.3.2 Z-Wave – A Growing Ecosystem
 - 2.3.3 HomeGrid
 - 2.3.4 HomePlug
 - 2.3.5 Wi-Fi
- 2.4 Entering a Period of Pervasive Growth

3.0 Trends in Residential Energy Management

3.1 March of the Market Movers

- Best Buy
- Cisco
- GE Consumer & Industrial
- Intel

3.2 Broadband Service Providers

- Rogers Communications (Canada)
- Verizon

3.3 Security Service Providers

- ADT
- Vivint (formerly APX Alarm)

3.4 HVAC Manufacturers

- Carrier (United Technologies)
- Lennox
- Trane (Ingersoll Rand)

3.5 A Growing REM Ecosystem

3.6 Utility AMI Deployments

4.0 Assessment of Major Opportunities

4.1 iREMs and HANs – Different Market Dynamics

4.2 Control and Monitoring Systems

4.3 Energy Management and Monitoring Services

4.4 Smart Appliances

4.5 Plug-in Hybrid and Plug-in Electric Vehicles

4.6 Batteries and Storage

4.7 Microgeneration

5.0 Takeaways & Recommendations

Figures

- Residential Energy Management Dashboard
- Definitions and Acronyms
- Energy Saving Installations/Activities Performed in Current Home
- Reasons for Making Energy Efficient Home Improvements
- Appeal of Home Energy Control Features
- ZigBee Smart Energy 2.0 Timeline
- Market Lifecycle Phases
- Energy Management Networks: Entering Phase of Pervasive Growth
- Residential Energy Management Ecosystem
- Households with AMI-capable and HAN-activated Meters
- Households with HANs and iREM Networks
- Households with HANs and iREM Nets: 2010 to 2020
- Household Penetration of Selected Energy Management Systems: 2010 to 2015
- Key Residential Energy Management Market Opportunities
- Key Residential Energy Management Market Opportunities
- Smartphone Owners More Interested in Energy Monitoring Service than Non-owners
- Self-monitoring Households and Penetration
- Self-monitoring Households Paying for Monitoring Services
- Selected Smart Appliance Manufacturers
- Selected Electric Vehicle Manufacturers

Residential Energy Management 2011: Trends and Opportunities

By Bill Ablondi, Director, Home Systems Research, &
Farhan Abid, Analyst

1Q 2011

Selected Battery Manufacturers
Selected Solar Panel Manufacturers and Dealers
Selected Wind Power Manufacturers
Selected Geothermal Firms
