

Global REM: Highlights of Key International Deployments

By Pietro Macchiarella, Research Analyst

3Q 2011

Synopsis

This industry report examines smart grid and residential energy management activities in key regions around the world. It focuses on the key drivers and inhibitors to smart meter deployments in Europe, Brazil, Canada, and Asia and examines the factors driving adoption of smart grid infrastructures in these regions, including the activities of utilities and their partners.

Countries/Regions Covered

Publish Date: 3Q 11

"The implementation of smart meters throughout the world has grown exponentially over the past couple of years," said Pietro Macchiarella, Research Analyst. "The development of technology, rising demand for energy, and regulatory standards all play a role in pushing upgrades of the world's antiquated electric power grids. In this report we provide information on the companies and organizations impacting the deployment of smart grid architectures in key countries around the globe."

Bottom Line

Data Points

Global REM: Highlights of Key International Deployments –
Dashboard

1.0 Notes on Methodology and Report Focus

- 1.1 Source of Data
- 1.2 Focus of Report

2.0 Market Overview

2.1 Common Drivers and Challenges

3.0 Case Studies - Lessons Learned

- 3.1 Italy
- 3.2 Sweden
- 3.3 Italy and Sweden Similarities and Differences

4.0 Smart Meter Deployments and Regulatory Practices by Country

- 4.1 Asia-Pacific
 - 4.1.1 Australia
 - 4.1.2 China
 - 4.1.3 India
 - 4.1.4 Japan
 - 4.1.5 Korea
 - 4.1.6 New Zealand
